# 1 RFP Purpose and Background

## 1.1 ORGANIZATIONAL CONTEXT

### 1.1.1 University of California

Founded as the state's first and only land grant institution in 1868, the University of California is a system of 10 campuses with approximately 180,000 undergraduate and graduate students. The official research arm of the State of California, UC has five medical schools, four law schools and the nation's largest continuing education program. It also manages three national laboratories that are engaged in energy and environmental research and approximately 130,000 acres of natural habitat in California for research, teaching and outreach activities. The University's fundamental mission is teaching, research and public service.

### 1.1.2 University of California, Merced

The University of California, Merced is the tenth campus of the University of California system. The UC Merced campus plays a pivotal role in providing educational opportunities to residents of California's San Joaquin Valley and to students entering the UC system from throughout California and the country. The campus site is approximately four miles northeast of the city limits of Merced. At maturity, the University will serve more than 25,000 students, faculty, and staff.

The main Campus and neighboring planned community will be created utilizing the latest sustainable, environmentally-sensitive techniques. The new campus will initially include three academic buildings, including a classroom and office building, library and science and engineering building. The goal for the university is to create an environment that is welcoming to students, reflects new technologies in building design and sets the standard for environmental stewardship and sustainability while providing a model for growth in the San Joaquin Valley.

## 1.2 RFP PURPOSE

The University of California, Merced (UC Merced) seeks a qualified supplier, or suppliers, with which to establish a long-term, cost effective, agreement for vehicle maintenance services. UC Merced requests your firm fixed pricing for standard maintenance services such as (but not limited to) oil changes, filter changes, tire rotations, etc. Other types of maintenance, including body work, will be handled on a case by case basis.

Qualified suppliers are invited to submit proposals, based on the information provided in this RFP, to establish a business alliance with UC Merced which will maximize the resources of the organizations to most effectively meet the vehicle maintenance requirements of the Merced campus.

Our strategy is to identify a vendor, or vendors, whose capabilities fit our vehicle maintenance requirements and from whom we will purchase labor and materials that meet our specific needs.

It is not the intent of this RFP to completely describe all aspects of all vehicle maintenance for all possible requirements.

The University intends to establish a three-year contract to be utilized by UC Merced on an as-needed basis. Responders should specify the basis (list prices, educational pricing, discount levels, etc.) upon which the quoted prices are based, and agree to provide all current and future products on that same price basis throughout the contract term.

### **1.3 INITIAL AGREEMENT PERIOD**

It is anticipated that the initial Contract term will be for a period of three (3) years. The University reserves the right and the Bidder agrees to allow the University the option to renew, at the University's sole discretion, for up to two (2) additional one-year periods.
